

**FIRST FLOOR RENOVATIONS,  
REAR ADDITION and NEW SECOND FLOOR**

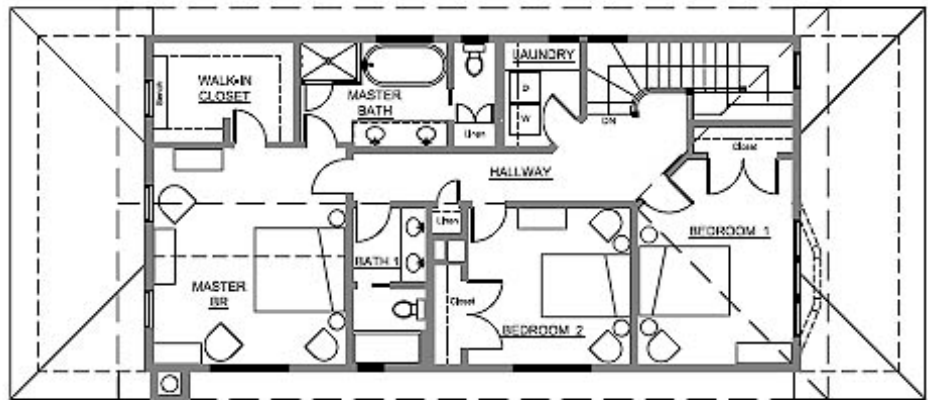

Evanston, Illinois 2007

An existing bungalow style is adapted to create an expanded Kitchen with Breakfast and Family Rooms that are better connected to the existing Living and Dining Rooms and rear yard. A new stair is provided to the New Second Floor Addition, which includes a new Master Bedroom and Bath, Laundry, Walk-in Closet and two Bedrooms. The new design preserves the existing appearance of the house from the street.
